Format: **We will follow in reverse order the Regional team event as our qualifier…2 regular team games followed by 2 4 game baker sets. This year's event again, will have a boy's team on one pair and their companion girl's team on the pair next door. Movement: we will use a 4 lane pod format after the first team game both teams on the same pair will move right or left (1-2 to lanes 3-4, 3-4 to 1-2). Same after the 2nd game the opposite move, there will be another move after the first 4 game baker block. Then the teams bowl another 4 game baker block. All baker games will count toward the total score. If there are 16 or more teams in a** bracket (boys or girls), the cut will be 16. If there are 11 or less teams, the cut to the second round will be 8. Match play head-to-head will constitute a change this year, a total pin 2 game alternating lane baker games, with the winner advancing to the next round. Ties will be broken with a 5 frame baker roll off. The higher seeded team will dictate starting lane choice. The third round will be a stepladder format with the 4 remaining teams. The highest seeded team remaining will become the top seed and be assured of a place in the final match. The lowest seed will bowl the 3rd lowest seed in a one baker game shoot out the winner, advances. That winner will bowl the second seed also a one game winner advances to the finals. **The finals will be a best 2 out of 3 alternating baker games. The top 4 boys' and girls' teams will receive Team plaques and team members will receive individual medals.** Each team can substitute only twice in each team game, but not for the same player.
